

Environmental Policy

R.E. Gilmore Investments Corp., lithographic and digital printing service provider, is committed to environmental management leadership, protecting the environment, preventing pollution and conserving energy and natural resources in all of its business activities, covered under the scope of its Environmental Management System.

Scope:

1. Comply with all applicable regulations and voluntary requirements to which GILMORE subscribes.
2. Be an environmentally responsible neighbour in the communities where we operate, and act promptly and responsibly to correct incidents or conditions that endanger the environment. Report them to authorities promptly and inform affected parties as appropriate.
3. Conserve natural resources by reusing and recycling materials, purchasing recycled materials, and using recyclable packaging and other materials.
4. Use development and manufacturing processes that do not adversely affect the environment, including developing and improving operations and technologies that minimize waste, prevent air and waste water emissions, and dispose of hazardous waste safely and responsibly.
5. Ensure the responsible use of energy throughout our business, including conserving energy, improving energy efficiency, and giving preference to renewable over non-renewable energy sources when feasible.
6. Continually improve Gilmore's environmental management system and performance.
7. Conduct audits and self-assessments of Gilmore's compliance with this policy, and report the results to the Corporate Environmental Management System Committee.
8. Every employee and every contractor on Gilmore premises will be informed about this policy and is expected to follow it and to report any environmental concerns to Gilmore management. Managers are expected to take prompt action.

This policy is reviewed at least annually at the Environmental Management Review Meeting and is posted throughout the facilities.
